

Animal Adaptations Review

1. What were the 2 primary types of animal adaptations discussed in the video?

2. Why do we think a Blue Tongue Skink has a blue tongue?

3. What do we call the spikey hair on a Pygmy Hedgehog?

4. How is a snake able to eat their prey whole?

5. When an animal such as a Dumeril's Boa or a Skink blends in with its environment what do we call it?

6. Please list 1 example each of a behavioral and a physical adaptation for the animals we learned about in the video:

	Behavioral Adaptation	Physical Adaptation
Blue Tongue Skink		
African Pygmy Hedgehog		
Dumeril's Boa		

7. What is one other interesting fact that you learned from the video that you didn't know before?
